Please note: No USMS times swum in LCM Time Trials -OR- in LCM Finals (in a Prelims and Finals meet) can be used for Top 10 or for USMS or FINA records. This is both a FINA and USMS rule.

Please everyone remember to submit split requests if there is the slightest possibility of setting a record or for Top 10. They must be done before the meet ends and cannot be submitted later.

As a reminder, all sanctioned USA Swimming meets are USMS Recognized and although FINA records cannot be set at these meets, times are good for Top 10 and USMS records. If you have a dual registered athlete setting T10 or USMS records at a USA Swimming meet, they must request the meet/times be added.

I have begun updating the SPMS All Time Individual and Relay T10 for last year's SCY season as Mary Beth Windrath posted it last week. I also have a couple SCM corrections that will be done at the same time.
