

Top Ten Report - October 2022

Reviewed & submitted the following meets to the national database: Nevada Senior Games (Oct 1-2, 2022) which was SCY, and the MVN SCM Meet from Oct 2, 2022. At MVN there was one World Record set, an Irish Masters record, and two US Paralympic records set.

I have sent Robert Mitchell a correction to the SCY All Time Top 10, and also a correction to the SCM All Time Top 10.

Housekeeping continues on the LCM season. There are several items on the list sent to me by National.

Please note: No USMS times swum in LCM Time Trials -OR- in LCM Finals (in a Prelims and Finals meet) can be used for Top 10 or for USMS or FINA records. This is both a FINA and USMS rule.

Please everyone remember to submit split requests if there is the slightest possibility of setting a record or for Top 10. They must be done before the meet ends and cannot be submitted later.

As a reminder, all sanctioned USA Swimming meets are USMS Recognized and although FINA records cannot be set at these meets, times are good for Top 10 and USMS records. If you have a dual registered athlete setting T10 or USMS records at a USA Swimming meet, they must request the meet/times be added.
